

## CLTRussells Pet Puppy Application

*Revised December 7, 2021*

Name: \_\_\_\_\_ Location: \_\_\_\_\_

1. Do you have a secured and fenced yard? Russell's are keen ground hunters and naturally love to dig to find vermin and rodents.

2. Do understand that the deposit is no refundable? It will not be refunded if your family changes their mind, don't like the puppies that are available, or found one from a different breeder. A deposit can be held for a future litter.

3. Did you read through our pet contract? (<http://www.cltrussells.com/CLTPetPuppyContract.pdf>) It is very important that you read and understand what you are signing.

4. You have 72 hours after pick up to have your puppy examined by a licensed vet to confirm that you received a healthy puppy. It is recommended due to COVID-19 to make the appointment once puppies are born and a delivery date has been chosen. Will this be difficult for you to arrange?

5. There is no guarantee on coat type, height, structure, conformation, or temperament no matter what is assumed by either breeder or anyone else. Many factors including environmental, nutritional, and genetics have an effect on these outcomes. Do you understand?

6. There is NO guarantee on coat type! I cannot ever seem to make this clear enough to families. The only time a coat can be confirmed at birth is when both parents are smooth coats which will result in every puppy being a smooth coat. With that said, your family's deposit is an agreement to accept that your puppy of choice may change from what it appears to be at the time of selection. Do you understand and accept that the coat type is not guaranteed and may change to a different type?

7. You are inquiring about a Pet Puppy, Which means that this puppy is not to be bred to produce any future litters. Your puppy will come with Limited registration with AKC, but don't worry, you can still participate in performance events like barn hunt, agility, dock diving, rally, lure coursing, and more. Do you agree to not breed your puppy and to have them fixed before 1 year of age?

**Thank you for taking the time to fill this application out and your interest in my breeding program which I have spent 13+ years refining to what it is today. If you have any further questions, please don't hesitate to ask. The only dumb question, is the one not asked.**
